1. Welcome/Roll Call

2. NDHIN Update – Sheldon Wolf
    a. NDHIN is continuing with the onboarding of Participants. Currently working with all the large hospitals and starting work with clinics and participants using the Healthland system
    b. NDHIN is working on moving from Direct Secure Messaging (DSM) 1.0 to 2.0
    c. PDMP (Prescription Drug Monitoring Program) is complete and work continues on the eHealth Exchange which will allow connectivity to other states and federal entities

3. Collaboration on Needs Assessment Data Conceptual Design Group – Sheldon Wolf
    a. Background – discussion started on the eastern side of the state by a group of people around data; where it is at, how to collect it better, if there is a need to consolidate data and how to work together as a state to bring data together quickly while also ensuring it is kept secure and confidential and that there are rules and regulations of the road in place
    b. This is a starting point to study and research if there is a need and determine from there a need for any legislation
    c. Spreadsheet of data sources in the state was shared
    d. Any comments/questions/feedback on the Collaboration on Needs Assessment Data Conceptual Design Group should be emailed to Sheldon Wolf at shwolf@nd.gov

NEXT MEETING: August 18, 2014 ~ 2:00 PM-3:00 PM CDT
